TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js (Learning), Tailwind CSS, DOM Manipulation, Fetch API

Backend: Node.js, Express.js, REST APIs, EJS, Middleware

Database: MongoDB, Mongoose, Local Storage

Tools: Git, GitHub, Postman, Render, Vercel, Netlify, VS Code

Languages: Java, JavaScript, C

PROJECTS

Full-Stack Todo Application

GitHub

- Built a full-stack task management application using React, Node.js, Express.js, and MongoDB.
- Implemented CRUD functionality for creating, updating, deleting, and managing tasks.
- Designed a responsive user interface for desktop and mobile users.
- Connected frontend and backend using REST APIs and handled asynchronous data fetching.
- Deployed the application using Render/Vercel.

Feedback Collection App

- Developed a full-stack feedback management application using Node.js, Express.js, EJS, and file-based storage.
- Built form handling, server-side validation, and dynamic rendering of submitted feedback.
- Implemented backend routing and RESTful architecture concepts.

Frontend Projects

- Calculator Application using HTML, CSS, and JavaScript.
- To-Do Application with Local Storage persistence.
- Rock-Paper-Scissors Game using JavaScript DOM manipulation.
- Weight Converter App for unit conversion.

EDUCATION

B.Tech in Computer Science and Engineering

2024 – 2028

Birla Institute of Technology, Mesra

RELEVANT COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

ACTIVITIES

- Member / Technology Enthusiast interested in software development and emerging technologies.
- Active problem solver practicing Data Structures and Algorithms in Java.
